LINK TO PORTFOLIO

SUMMARY

Technical designer with **at least 6 years** of combined programming and gameplay design experience across more than **4** shipped/prototyped projects, including an award-winning prototype at Ubisoft Game Lab 2026. Specializes in 3C systems and Unity/C# prototyping, with a programming background that lets me build and iterate on my own design tools.

EXPERIENCE

Gameplay & Level Designer — *Sly n' Ky: Jouet 2 en 1* Jan 2026 – April 2026

Ubisoft Game Lab 2026 — Best Prototype Winner

- Designed core 3C mechanics (Character, Camera, Controls) and level layouts for **2** levels/prototypes with an **8**-person cross-discipline team
- Built and iterated blockings and level design objects (LDOs) in Unity across **3** playtest cycles
- Selected as Best Prototype among **24** teams at Ubisoft Game Lab 2026
- Shared via itch.io

Gameplay Designer & Programmer — *Age of Conquest* Aug 2020 – Dec 2024

- Designed and implemented gameplay systems spanning combat, AI (**10+** enemy types/behaviors), progression (**6+** tiers), and inventory (**12+** item types) over a 4.5-year development cycle
- Designed and animated for over **10+** characters using the Roblox Animator Plugin
- Shared via Roblox with **140k+** plays

PHP Developer Intern — MCB Informatique Winter 2024

- Developed backend (PHP) and frontend features across **3** pages, supporting **5** team members
- Developed frontend of a client ticket system
- Designed and implemented new web pages, to connect payment systems to government taxing

Gameplay Designer & Programmer — *Slime & Slice* Summer 2025

- Designed and implemented 3C systems and player controller, refined across **3** months
- Created and iterated on level design in Unity

EDUCATION

Bachelor's Degree in Game Design Aug 2024 – April 2027

Université du Québec en Abitibi-Témiscamingue (UQAT)

Computer Science Technical Diploma Aug 2021 – June 2024

Collège Lionel-Groulx

SKILLS

- Tools: Unity | Unreal Engine 5 | C# | Jira, Miro, Fibery | GitHub, Perforce | SCRUM
- Technical skills: Visual Scripting / Blueprints | Prototyping
- Languages: French, English
